MW 2PM-5PM

Open to Juniors & Seniors as

DMA 160

Open to Graduate
Students as

DMA 596

A class in partnership between the UCLA School of Arts and Architecture, the School of Theater, Film and Television, and Center for the Art of Performance.

This class will explore the relationship between sound, body, and performance by tracking live performers and using their movement data to control the compositions.

A visiting artist specializing in movement and performance will work with students to develop final performances, concluding with a public exhibition of all the developed pieces.
